

Persona Snapshot

Sarah Mitchell

Age: 18

Gender: Female

Level of Study: Freshman

Major: Marketing

Sarah is a first-year college student adjusting to the workload and independence of college. She is still learning how to manage her time and keep track of assignments across multiple classes.

Background

Personal Characteristics

- Motivated but easily overwhelmed
- Still developing time management skills
- Relies on reminders and notes
- Prefers simple, easy-to-use tools

Hobbies and Interests

- Studying with friends
- Watching Netflix / social media
- Campus events
- Trying to balance school and personal life

Goals

Primary Goals:

- Stay on top of assignments and deadlines
- Improve time management
- Avoid missing important coursework

Motivations:

- Maintain good grades
- Reduce stress from schoolwork
- Feel more in control of schedule

Challenges

Main Pain Points:

- Assignments spread across Blackboard, email, and syllabi
- Difficulty keeping track of multiple deadlines
- Forgetting smaller assignments

Frustrations:

- Missing deadlines due to lack of organization
- Constantly checking multiple platforms
- Feeling overwhelmed during busy weeks

Persona Snapshot

James Carter

Age: 22

Gender: Male

Level of Study: Junior (transfer)

Major: Computer Science

James transferred into a university and is now balancing a heavy CS workload with responsibilities at home. He often has multiple programming assignments and projects due at once.

Background

Personal Characteristics

- Strong problem solver
- Busy schedule outside school
- Comfortable with technology
- Often multitasking

Hobbies and Interests

-
- Coding personal projects
- Gaming or watching tech content
- Spending time with family
- Learning new programming skills

Goals

Primary Goals:

- Keep track of all assignments in one place
- Manage time between school and personal life
- Stay ahead of deadlines

Motivations:

- Wants to succeed after transferring and not fall behind
- Motivated to balance school with personal responsibilities
- Aims to build skills for future internships/jobs

Challenges

Main Pain Points:

- Juggling school and home responsibilities
- Multiple assignments across different platforms
- Losing track of smaller or less urgent tasks

Frustrations:

- Having to check Blackboard, email, and notes separately
- Forgetting assignments until the last minute
- Feeling behind during busy weeks

Persona Snapshot

Priya Patel

Age: 24

Gender: Female

Level of Study: Graduate Student

Major: Data Science

Priya is a graduate student balancing advanced coursework with a part-time internship. Her schedule is tight, and she needs to stay highly organized to keep up with both academic and professional responsibilities.

Background

Personal Characteristics

- Highly driven and disciplined
- Busy and time-constrained
- Tech-savvy
- Focused on efficiency

Hobbies and Interests

- Working on data/tech-related projects
- Networking and career development events
- Fitness or quick workouts
- Listening to podcasts or professional content

Goals

Primary Goals:

- Quickly see what tasks are due
- Prioritize assignments and responsibilities
- Stay organized without wasting time

Motivations:

- Focused on career advancement and securing a full-time job
- Wants to perform well in both internship and academics
- Values productivity and organization

Challenges

Main Pain Points:

- Limited time due to internship
- Managing multiple deadlines at once
- Switching between school and work tasks

Frustrations:

- Wasting time searching for assignment details
- Overlapping deadlines
- Lack of a single, clear overview
